## OBJECTIVE

Passionate and detail-oriented Technology professional with a strong foundation in Cloud Computing, Python, PHP, MySQL, HTML5, CSS3, JavaScript and Bootstrap. Proficient in building dynamic web applications with hands-on experience gained during an internship, with a focus on web development and PHP.

Adept at utilizing cloud technologies to deploy scalable solutions, with expertise in platform like AWS. Skilled in database management and server-side scripting, committed to writing clean and efficient code.

Continuously advancing technical knowledge to adapt to evolving industry trends. Proven ability to collaborate in fast-paced environments to deliver high-quality software solutions.

## EDUCATION

### Parul University

*Master of Computer Applications*

**August 2024 – Present**

*Vadodara, Gujarat*

### Parul University

*Bachelor of Computer Application in Cloud Computing – CGPA: 7.38*

**August 2021 – April 2024**

*Vadodara, Gujarat*

### Utkarsh School

*Higher Secondary*

**May 2021**

*Rajkot, Gujarat*

### Saint Mary's School

*Secondary*

**March 2019**

*Rajkot, Gujarat*

## WORK EXPERIENCE

### Php Intern | Dotpitch technology

**November 2023 – April 2024**

*Rajkot, Gujarat*

- Designed and developed dynamic web applications using **HTML5**, **CSS3**, and **JavaScript**, ensuring responsive and optimized user experiences across various devices and screen sizes.
- Leveraged **Bootstrap** to create visually appealing and consistent interfaces, enhancing development efficiency and speeding up the design process.
- Implemented **PHP** for backend development, integrating dynamic features and maintaining a seamless flow of content.
- Managed database operations with **MySQL**, optimizing data interactions and ensuring efficient storage solutions.
- Worked in a team environment, enhancing communication and collaboration skills, contributing to projects and learning from team members' expertise.

## SKILLS

---

### Technical Skills

- Specialization in Cloud Computing (AWS)
- PHP
- Python
- HTML / HTML5
- CSS / CSS3
- JavaScript

### Soft Skills

- Adaptability
- Dependable & Trustworthy
- Continuous Learner
- Teamwork & Collaboration

## PROJECT

---

**Café Management System** | *PHP, HTML, CSS, Bootstrap, JavaScript, MySQL* – A web-based system to streamline café operations like order processing, billing, and menu management with a user-friendly interface for staff and customers.

**Cloth Shopping System** | *PHP, HTML, CSS, Bootstrap, JavaScript* – An e-commerce platform for browsing, selecting, and purchasing clothes online, with features for product, customer, and order management.

**Donation Management System** | *PHP, HTML, CSS, Bootstrap, JavaScript, Next.js, MySQL* – Developed for efficient donation tracking and management using PHP and MySQL, with a responsive interface built using Next.js and Bootstrap.

**Trek-The-North** | *PHP, HTML, CSS, Bootstrap, JavaScript* – A web-based application that allows users to search and book travel packages, including flights and hotels, with secure payment and admin management features.

## CERTIFICATES

---

- Certificate for Completion of C Training, IIT Bombay
- Certificate for the Completion of Java Training, IIT Bombay
- Certificate of Achievement in Speech master 2.0
- Java Servlet Basics and JSP 101 from SimpliLearn
- Introduction to Cloud Computing from SimpliLearn
- Introduction to generative AI
- AWS Academy Graduate - AWS Academy Cloud Foundations
- AWS Educate Getting Started with Storage
- Data Structures and Algorithms Python: The Complete Bootcamp , Udemy
- Python Programming for AWS - Learn Python with AWS and Boto3 , Udemy
